

CAS (Crash Analysis System) Site Access Application

Where to send your application

Please send your application, signed Terms and Conditions Agreement, and signed Confidentiality of Information Agreements to:

IT Operations
Land Transport New Zealand
Private Bag
Palmerston North

CAS Licences

The CAS Terms and Conditions document identifies that *“Connection to the CAS system will be via the internet using a Citrix Secured Gateway. To access this, your site will require at least one Licence Set. **Each Licence Set enables any one user from your site to be connected to CAS at any one time.** Each Licence Set has a renewable annual charge of \$250 (inc. gst), reduced to zero for an agreed number of licence sets for each of the Land Transport NZ's core Road Safety Partners, who are Road Controlling Authorities, the Police, Ministry of Transport and Transfund”*

The numbers of licence sets that will be made available to the Land Transport NZ's core Safety Partners without charge are:

Office of the Commissioner	Up to 3 licence sets
Police Districts	Up to 2 licence sets
Local Authorities	Typically 1 licence set, up to 3 for large urban authorities
Transit Offices	1 licence set
Transfund Offices	1 licence set
Ministry Of Transport Offices	1 licence set
Accident Compensation Corporation (ACC)	1 licence set

CAS Terms and Conditions

Before this application can be processed the CAS Helpdesk requires a signed copy of the CAS Terms and Conditions document. **Please include this with your application.**

Privacy of Crash Report Images

The “Confidentiality of Information” section of the Terms and Conditions document deals with the privacy issues relating to the crash report images. You have been supplied with a brochure on TCR forms, which shows what is on the various pages.

If your site wishes to have access to all pages of the crash report then include with your application copies of the Confidentiality of Information Agreement signed by each CAS user at your site.

If your site elects not to follow this process, then your site will only have access to the diagram pages of the crash report images.
